TECHNICAL INFORMATION

SUBJECT:REACH

RENOLIT Hispania, S.A. informs that the following articles manufactured and supplied to ROCHESTER 100, INC (customer code: 855531),

FB-24302

do not contain, in a concentration above 0.1% (w/w), any of the substances included on the candidate list (ed.: 20/06/2016}, set out according to article 59 (1,10} of the REACH - regulation.

We provide this product information on the basis of our current knowledge and experience (Safety Data Sheet) and can neither give any warranty nor assume any responsibility for factors outside our control or knowledge.

Renolit Hispania has not responsibility for any contamination (in minimum concentrations) from the raw materials.

Your inquiry concerning TSCA section 6 (h)

To whom it may concern,

Protect informs, that the following substances are not part of the formulation of the articles listed in Annex I:

- Decabromodiphenyl ether (DecaBDE), CAS Number 1163-19-5
- Phenol, isopropylated phosphate (3:1) (PIP (3:1)), CAS Number 68937-41-7
- 2,4,6-tris(tert-butyl) phenol (2,4,6-TTBP), CAS Number 732-26-3
- Hexachlorobutadiene (HCBD), CAS Number 87-68-3
- Pentachlorothiophenol (PCTP), CAS Number 113-49-3

However, it is not always possible to preclude low level raw material or film contamination of the above-mentioned substances and this might result in films containing such substances at trace level. Analysis of such substances does not necessarily form part of our quality control system.

We provide this product information based on our current knowledge and experience. Basis of our current knowledge and source of this supplied data is the safety data sheet of our raw material supplier. We can neither give any warranty nor assume any responsibility for factors outside our control or knowledge.

In case of further questions please do not hesitate to contact us. Responsible for questions concerning your inquiry are:

Your inquiry concerning RoHS

To whom it may concern,

Protect informs, that the following substances, also mentioned in Annex II of the Commission delegated Directive (EU) 2015/863 of 31 March 2015 amending Annex II to Directive 2011/65/EU of the European Parliament and of the Council as regards the list of restricted substances, are not part of the formulation of the articles listed in Annex I.

- Lead
- Mercury
- Cadmium
- Hexavalent chromium
- Polybrominated biphenyls (PBB)
- Polybrominated diphenyl ethers (PBDE)
- Bis(2-ethylhexyl) phthalate (DEHP)
- Butyl benzyl phthalate (BBP)
- Dibutyl phthalate (DBP)
- Diisobutyl phthalate (DIBP)

However, it is not always possible to preclude low level raw material or film contamination of the above-mentioned substances and this might result in films containing such substances at trace level. Analysis of such substances does not necessarily form part of our quality control system.

We provide this product information based on our current knowledge and experience. Basis of our current knowledge and source of this supplied data is the safety data sheet of our raw material supplier. We can neither give any warranty nor assume any responsibility for factors outside our control or knowledge.

21.03.2024

Your inquiry concerning REACH

To whom it may concern,

an updated version of the official candidate list for Annex XIV of the REACH Regulation (EC 1907/2006) has been published by the European Chemicals Agency (ECHA) on January 23rd, 2024. This list can be found on the ECHA-website (<http://echa.europa.eu>).

In accordance with article 33 of the REACH Regulation, any supplier of an article containing a substance on the list in a concentration above 0,1 % (w/w) shall provide the recipient with sufficient information to allow safe use of the article including, as a minimum, the name of that substance.

Protect informs, that the articles mentioned in Annex I do not contain, in a concentration above 0,1 % (w/w), any substance included on the candidate list (status: January 23rd, 2024) set out according to article 59 (1,10) of the REACH Regulation.

However, it is not always possible to preclude low level raw material or film contamination of substances included on the candidate list and this might result in films containing such substances at trace level. Analysis of such substances does not necessarily form part of our quality control system.

Following our information, the packaging materials of our articles do not contain any substances included on the candidate list (status: January 23rd, 2024).

We provide this product information based on our current knowledge and experience. Basis of our current knowledge and source of this supplied data is the safety data sheet of our raw material supplier. We can neither give any warranty nor assume any responsibility for factors outside our control or knowledge.

Your inquiry concerning PFAS

Dear Mr. Downey,

Protect informs that PFAS are not part of the formulation of the articles listed in Annex I.

However it is not always possible to preclude low level raw material or film contamination of the above mentioned substance group and this might result in films containing such substances at trace level. Analysis of such substances does not necessarily form part of our quality control system.

We provide this product information on the basis of our current knowledge and experience. Basis of our current knowledge and source of this supplied data is the safety data sheet of our raw material supplier. We can neither give any warranty nor assume any responsibility for factors outside our control or knowledge.

Your inquiry concerning Conflict Minerals

To whom it may concern,

Protect informs that the articles listed in Annex I, and our production process are, due to the formulation of these articles, free of minerals that are extracted from the Democratic Republic of Congo and the surrounding regions. These minerals include tin, tungsten, tantalum and gold. Even if the formulation of an article contains one or more of the above mentioned elements in a composition, the supplier of these substances have stated, that the products they manufacture are products from conflict free areas and contain no intentionally added conflict minerals from the Democratic Republic of Congo or an adjoining country.

We provide this product information on the basis of our current knowledge and experience. Basis of our current knowledge and source of this supplied data is the safety data sheet of our raw material supplier. We can neither give any warranty nor assume any responsibility for factors outside our control or knowledge.

In case of further questions please do not hesitate to contact us. Responsible for questions concerning your inquiry are:

Dr. Wolfgang Eiser, wolfgang.eiser@renolit.com (phone +49 6241 303 329)

Your inquiry concerning certain substances of content

Dear Mr. Downey,

Protect informs that the following substances are not part of the formulation of the articles listed in Annex I.

- Decabromodiphenyl ether (DecaBDE), CAS Number 1163-19-5
- Phenol, isopropylated phosphate (3:1) (PIP (3:1)), CAS Number 68937-41-7
- 2,4,6-tris(tert-butyl) phenol (2,4,6-TTBP), CAS Number 732-26-3
- Hexachlorobutadiene (HCBD), CAS Number 87-68-3
- Pentachlorothiophenol (PCTP), CAS Number 113-49-3

However it is not always possible to preclude low level raw material or film contamination of the above mentioned substances and this might result in films containing such substances at trace level. Analysis of such substances does not necessarily form part of our quality control system.

We provide this product information on the basis of our current knowledge and experience. Basis of our current knowledge and source of this supplied data is the safety data sheet of our raw material supplier. We can neither give any warranty nor assume any responsibility for factors outside our control or knowledge.

In case of further questions please do not hesitate to contact us. Responsible for questions concerning your inquiry are:

Dr. Wolfgang Eiser, wolfgang.eiser@renolit.com (phone +49 6241 303 329)
Mrs. Eva-Maria Mehn, eva-maria.mehn@renolit.com (phone +49 6241 303 1389)

Yours faithfully

RENOLIT SE
